

# Truly Exceptional

Kenwood's new FreeTalk® XLS is elegantly compact, yet offering 15 channels, 38 QT talk groups, 83 DQT talk groups, and all the features you need to keep in touch with friends and family. Take it on your next trip, whether you're hiking and camping, or simply exploring a new shopping mall. The controls are superbly simple. You can even clip the radio to your belt and use a headset (option) for hands-free VOX operation. Truly exceptional. FreeTalk® — from KENWOOD.

M a j o r F e a t u r e s

- 15 channels, 38 QT talk groups & 83 DQT talk groups  
 The FreeTalk<sup>®</sup> offers no fewer than 15 channels, of which 1-7 are compatible with FreeTalk<sup>®</sup> FRS radios. QT (Quiet Talk) means that you hear only calls with the specified talk group tone (38 for QT) or code (83 for DQT), eliminating unwanted interference from others using the same channel. And to check

- Compact, durable design & simplified controls  
 Weighing just 7oz (200g) with the rechargeable battery, the FreeTalk<sup>®</sup> is light as well as ergonomically designed to fit into the palm of your hand. The tough polycarbonate case ensures that

for voice activity on different channels and talk groups, there's a handy scan function.

it's able to withstand the rigors of outdoor use. And to make operation as simple as possible, the control buttons have been reduced to PTT, MON, MENU, CALL, UP and DOWN.

a separate 2-color LED indicates red for transmit and green for an active channel.

by switching output from 1 watt to 500mW (per radio). A belt clip is also supplied.

\*Operating Rate: 5.5-9.0 duty cycle

Supplied accessories	
• Rechargeable Ni-MH battery	
• Desktop charger	
• Spring belt clip	
• 1-year warranty card	
• FCC license information	

- User-friendly features  
 Exceptionally convenient FreeTalk<sup>®</sup> features are 6 call tones (transmitted when the CALL button is pressed), VOX operation (with 3 levels of sensitivity), and a time-out timer (3 or 10 minutes).

- 4-digit 7-segment LCD with backlight  
 The distinctive display is extra large, making it easy to check on both channel and signaling information — even in the dark, thanks to backlighting. A 3-level icon in the LCD shows you how much battery power is left, while

- Privacy Talk<sup>®</sup>  
 Privacy Talk<sup>®</sup> scrambles the transmitted signal to keep your conversations confidential.
- Includes 10-hour battery pack, desktop charger and more  
 You can enjoy up to 10 hours\* (approx.) of use with the supplied Ni-MH rechargeable battery. When you get home just slip it into the desktop charger. And if you're planning to spend a few days away, no problem: the FreeTalk<sup>®</sup> will run off a pack of 3 AA alkaline batteries. In addition to there being a battery save feature, you can conserve power

- Operating range

Open areas without obstructions	Up to 4 miles (6.4km)
Residential areas (with buildings in the immediate vicinity)	Up to 1.5 miles (2.4km)
In steel and/or concrete reinforced buildings	Up to 200,000 sq. ft. (18,580 sq. m)
In high-rise buildings	Up to 15 floors

Note: Data is based on test models; actual range depends on the individual transceiver and conditions.

- Vibration and tone alert
- Busy channel lockout
- Simplex/Semi-Duplex (compatible with GMRS repeaters)
- Key lock
- Low battery alert
